

Wayne H. McLemore

ウェイン・マックレモア

Objective

To obtain a position as a creator and producer of high quality media content and user experiences for a forward-thinking organization that understands the importance of community and social value.

Work

Freelancer Storyboarded, managed materials, animated and rendered over 10 motion infographic videos for a Japanese media company. Videographed a series of videos for Vox Media's Eater.com. Developed a splash page website, creating graphics and layout, for a healthcare app.

Project manager, researcher, Japanese translator. Coordinated with outsourcing vendors on 7 projects in 3 countries. Assisted in negotiating purchase orders. Organized data transfers. Translated technical production notes, specifications, etc. Researched, evaluated, and implemented project management software, customizing as needed per project.

Projects

Web Design Created web apps from scratch, designing UI/UX, login registration/verification, simple CMS capabilities, dynamically generated content via AJAX, and learned all these skills studying and coding during my free time.

Southern Dojo My thesis research, personal hobby and passion. Creating new models of digital distribution for user-generated media, specifically utilizing the Google Maps API for location based distribution. Aimed at supporting communities, local media creators and local businesses.
